

Treemobile Plant Selection Guide Spring 2019

Growing Resilience Together

Prices include fungi innoculant for trees, website and operating costs. A minimal percentage has been added to enable Treemobile to donate extra plants to community orchards. All work is done by cheerful volunteers - sign up if you'd like to help. Proceeds, if any, are donated to Transition Guelph, Transition Toronto, and our wonderful host sites

In order to keep costs down, a nominal fee will be charged for delivery. Please note that **deliveries are within the delivery zones only** (zone map posted separately). If you are from outside of the delivery zone, you are welcome to pick up your order at one of our distribution centres, which you can specify when ordering.

Treemobile is not responsible for damages to any services or property. Please call Ontario One Call 1-800-400-2255 to have your locates done before digging, especially for front yards

Plants are not guaranteed. Please take good care of your plants and water them as per instructions so that you may have delicious fruit for years to come. Refer to the Orchard People website <http://www.orchardpeople.com/> for care and watering, download their free manual, and/or purchase the online tree care book.

Thanks for your interest in Treemobile!

 All fruit trees can be constrained by pruning

Plant Name	Description	Poll.	Pollinator Partner	Ripens	Siting	Approx. Purchase Size	Mature Size		Price (incl. tax)
							H	W	

All fruit trees semi-dwarf or as noted. Rootstock info given if known. Zone refers to climate hardness; eg. Toronto is Zone 6, Guelph is Zone 5.

Some plants require another variety for pollination. If there is another tree of the same variety & bloom time within 150' you should be fine. If not, and you don't have space for two trees, a neighbour can buy one and you can share the bounty!

FOR ALL FRUIT TREES: Full sun, protected from wind with good air circulation. East exposure helps to dry dew. Avoid bottom of hills (frost pockets) or hilltops unless protected by windbreak or building. Plant where falling fruit will not be an issue, nor under wires or over services. Fruit plants can be an ornamental part of your landscape design.

Pome Fruit Trees

APPLE 'GOLDEN SENTINEL' E.M.26 Zone 5	Small elegantly compact columnar tree, great for tight spots and city lots. Fruit is produced on spurs along the trunk, similar to Golden Delicious in flavour. Early producer for fresh eating, pies.	PR	Red Sentinel, Honeycrisp, Parkland, Sweet 16, Wealthy, Wolf River, Dolgo, Spartan, Liberty	early Sept.	see above	20mm BR 5-6'	8-10'	2-3'	\$45
APPLE 'SCARLET SENTINEL' E.M.26 Zone 5 "NEW"	Dwarf columnar tree similar to Gold Sentinel for big pots and city lots. Red-blushed fruit is crisp and sweet. Fruit produced on spurs along the trunk. Early producer for fresh eating, pies.	PR	Gold Sentinel, Honeycrisp, Parkland, Sweet 16, Wealthy, Wolf River, Dolgo, Spartan, Liberty	early Sept.	see above	20mm BR 5-6'	8-10'	2-3'	\$45
APPLE 'HONEYCRISP' M.M.106 Zone 3	A popular new apple variety. Striped red/gold; crisp, sweet, mid-acid. Eat fresh or bake, stores very well. Dependable bearer, fairly resistant.	PR	Red or Gold Sentinel, Liberty, Spartan, Parkland, Sweet 16, Wolf River, Wealthy	end Sept.	see above	20mm BR 7-10'	17'	12'	\$45
APPLE 'LIBERTY' E.M.26 Zone 4	Medium red apple with crisp juicy yellow flesh for fresh eating or applesauce. Easiest apple to grow organically, very resistant to scab, rust, blight.	PR	Gold or Red Sentinel, Honeycrisp, Parkland, Sweet 16, Wealthy, Wolf River, Dolgo, Spartan	early Sept	see above	20mm BR 7-8"	15'	11'	\$45
APPLE 'PARKLAND' M.M.106 Zone 3	Yellow-green fruit with red blush. Creamy-white firm flesh, balanced flavour. Early fruiting. Very hardy and resistant tree. Fresh or cooked.	PR	Red or Gold Sentinel, Liberty, Honeycrisp, Sweet 16, Wealthy, Wolf River, Spartan	mid-Aug	see above	15mm BR 5-7'	17'	12'	\$43
APPLE 'SPARTAN' M.M.106 Zone 3	Small sweet crisp & juicy red apples for fresh eating. Hardy and resistant tree, dependable bearer with few problems	PR	Gold or Red Sentinel, Honeycrisp, Parkland, Sweet 16, Wealthy, Wolf River, Dolgo, Liberty	October	see above	20mm BR 7-10'	17'	12'	\$45
APPLE 'SWEET SIXTEEN' M.M.106 Zone 4	Large firm crisp red-striped fruit, complex flavour. Eat, cook, bake; keeps well. Later blooming, may help avoid frost loss. Thin fruit early to retain annual crop.	PR	Red or Gold Sentinel, Liberty, Honeycrisp, Parkland, Wealthy, Wolf River, Spartan	mid-Sept.	see above	20MM BR 7-10'	17'	12'	\$45
APPLE 'WEALTHY' M.M.106 Zone 3	Heritage apple from Minnesota in 1868. Bright red/yellow, aromatic berry flavour, creamy & crispy, very juicy. Fresh, cooked, keeps well.	PR	Red or Gold Sentinel, Liberty, Honeycrisp, Parkland, Sweet 16, Wolf River, Spartan	mid-Sept.	see above	20MM BR 7-10'	17'	12'	\$45
CRABAPPLE 'DOLGO' (FRTING) Zone 3	Large pretty bright red crabapples make delicious jellies and chutneys, highly ornamental in both fruit and flower. Low maintenance.	PR	Spartan, Liberty, other crabapples	mid-August	see above	20mm BR 7-10'	15'	11'	\$43
PEAR 'BARTLETT' Zone 5	Classic yellow pear, rich and buttery. Eat, can; good producer. Pears are easier to grow than apples.	PR	other pear variety	mid-Sept.	see above	15mm BR 6-8'	25'	12'	\$45
PEAR 'BOSC' Zone 5	Tan coloured elegant French pear for dessert, cooking, keeps well. Holds shape so best for poaching, canning. Hardy and slower growing.	PR	other pear variety	early Oct.	see above	15mm BR 6-8'	25'	12'	\$45

Pome Fruit Trees (cont.)									
PEAR 'LUSCIOUS' Zone 5	Juicy sweet small pears for fresh eating, not recommended for canning. Yellow fruit with rosy blush. Hardy & blight resistant	PP	other pear variety	Sept	see above	15mm BR 6-8'	17'	12'	\$45
ASIAN PEAR 'CHOJURO' Zone 4	Russet colour, juicy, aromatic and crisp, stores well. Few diseases, fruit tends to hang on tree till picked. Fresh eating or keeping.	SP/PP	bartlett, other Asian	late Aug.	see above	20mm BR 7-9'	15'	10'	\$46
ASIAN PEAR 'SHINSEIKI' Zone 4	Yellow green, juicy and crisp, stores for months. Few diseases, fruit tends to hang on tree till picked. Eat fresh or store for winter eating	SP/PP	bartlett, other Asian	early Sept.	see above	20mm BR 7-9'	15'	12'	\$46

Stone & Other Tree Fruits									
APRICOT 'PUGET GOLD' Zone 5	Exceptional flavour and texture for fresh eating, cooking, preserving. Apricots are not easy to grow (peach leaf curl), but worth trying for the delicious taste and texture of a really ripe apricot. Plant where it will not see the sunrise, so spring thaws will not cause premature flowering.	SP	Plant spring flowering plants nearby to attract pollinators	July	Protect from morning sun - see description	20mm BR 7-9'	18'	16'	\$55
CHERRY 'LAPIN' Zone 3	Dark red-skinned large sweet, delicious cherry for fresh eating. Vigorous & very productive, fruit less prone to cracking in wet years.	SP/PP	pollinates other cherries	June/July	see top bar	20mm BR 8-12'	22'	15'	\$55
CHERRY-SHRUB 'JULIET' Zone 2	Quality dark red sweet cherries for fresh eating. Shrub cherry for smaller gardens or edible hedges. Easy to grow, prune to desired size.	SP/PP	pollinates other cherries	August	see top bar	2 gallon pot	6-8'	5-6'	\$35
CHERRY-SHRUB 'VALENTINE' Zone 2	Bright red tart cherries, great for preserves and pies. Smaller cherry for urban yards, tolerant of city conditions. Easy to grow.	SP/PP	pollinates other cherries	August	see top bar	2 gallon pot	6-8'	4-5'	\$35
CHERRY-PLUM (aka CHUM) 'NADIA' NEW! Zone 4	Cherry-plum cross, dark red fruit halfway between cherry and plum in size and flavour. Eat fresh, bake, or preserve.	SP/PP	pollinates other cherries & plums	Aug/Sept	see top bar	20mm BR 7-9'	10'	10'	\$55
MULBERRY (Morus alba) *NEW* Zone 3	Grows anywhere, salt and city tolerant, very low maintenance. Sweet berries ripen over several weeks and attracts birds. Cut leader to keep tree smaller for easier access to fruit. Plant in grass or bed where fruit fall will not be inconvenient	SP		June/July	Can become a large tree unless pruned	12 - 18" BR	30-50'	15-20'	\$25
PLUM 'BURBANK' Zone 5 *IT'S BACK!*	Purple-gold large plum with delicious sweet amber flesh. Eat, cook, preserve, dry, can. Bears well, blight resistant.	PR	other plum	end Aug.	see top bar	15mm BR 7-9'	17'	14'	\$45
PLUM 'EARLY GOLDEN' Zone 5	Blushing yellow, sweet/tart little freestone plum. Eat, preserve, dry, can. Vigorous, hardy, good producer.	PR	other plum	end July	see top bar	15mm BR 7-9'	15'	12'	\$45

Native Fruits									
BEACH PLUM *bndl of 2 different varieties for pollination* Zone 4 NEW!	A large bush or small tree producing small white flowers, then an abundance of fruit about the size of a dime. Can be eaten raw, or made into jams or jellies. Very hardy, tolerates salt spray.	PR	other beach plum; pollinated by hover flies	August	sun	3-year BR	7-9'	6'	\$59 for 2
ELDERBERRY 'KENT' Zone 3	Elderberries are ornamental and low maintenance. Large white flowers can be used for tea, fritters or wine. Berries are high in Vit. C, should be eaten cooked when fully ripe. Use in cough remedies, juice, jams, pies. Cut out weak stems in spring. Easy to grow. KENT: Medium fruit with good flavour.	PR	other elderberry variety	August	sunny to fairly sunny	BR	8'	6'	\$12
ELDERBERRY 'SCOTIA' Zone 3 *NEW*	SCOTIA: Very sweet black berries VICTORIA: Small tasty black fruits	PR	other elderberry variety	July	sunny to fairly sunny	BR	8'	6'	\$12
ELDERBERRY 'VICTORIA' Zone 3		PR	other elderberry variety	Sept.	sunny to fairly sunny	BR	8'	6'	\$12

Native Fruits (cont.)									
SASKATOON BERRY aka SERVICEBERRY (Amelanchier aln.) Zone 4	Blueberry/almond-flavoured early berries make great pies/preserves. Smooth grey bark, spring flowers, great fall colour. Often used as an ornamental. Very low maint., attracts birds. Native N. Americans used berries in pemmican.	SP		June	sun, light shade	2 gallon pot	6'-10'	6'	\$25
Nuts									
RUSSIAN ALMOND *bndl of 2 varieties for pollination* IT'S BACK! Zone 2	Extremely hardy, very ornamental shrubs. Masses of rose pink flowers in early spring, small almonds produced late summer. Tends to sucker so prune out unwanted growth.	PR	other almond	late summer	sun	10-18" BR	3-5'	3-5'	\$69 for 2
HAZELNUT (blight resistant) Zone 4 bundle of 2 varieties for pollination*	Delicious nuts full of protein, shells are a good source of heat as fuel. Fruits in about 4 yrs. Pollinated by wind, not bees. Cultivars have been bred for blight resistance.	PR	other hazel	fall	sun, well-drained soil, keep away from salt spray	12-24" BR	20-25'	15'	\$59 for 2
Shrubs & Canes									
BLACKBERRY 'BLACK SATIN' Zone 4b	Very large juicy berries on long canes for six weeks in summer, much sweeter than commercial varieties. Easy to grow. Best planted not too close to apples.	SP		July	Full sun, away from patios or apple trees.	2 gallon pot	10'	prune to size	\$20
CURRANT 'RED LAKE' Zone 5 *bundle of 2 red, 1 black**	Tart red fruit for salads, smoothies, jellies, drying. Easy to grow. Fits into shrub border, prune to desired height.	SP		mid July	sun, part shade	BR	3-4'	3'	\$29
CURRANT 'WELLINGTON' Zone 5 (sold with Red Lake)	Soft aromatic black berry for jellies, drying. Easy to grow. Fits into shrub border, prune to desired height. Makes fantastic jam without pectin, pick when fully ripe for best flavour.	SP		mid July	sun, part shade	BR	3-4'	3'	
GOOSEBERRY 'PIXWELL' Zone 3	Greenish fruit for jelly, mincemeat, chutney. Flavour changes when ripens to purple. Slightly thorny, easy to grow. Walnut & shade tolerant.	SP		July-August	sun or part shade	2 gallon pot	3'	2-3'	\$24
HASKAP 'BOREALIS' Zone 3	Long sweet berry, tasty blueberry/ raspberry flavour; high in anti-oxidants. Fresh, jam, wine. Easy to grow, ornamental. Fruit hangs under branches so birds don't see them. Ripens earlier than many other berries, often fruits first year!	PR	One Cinderella will pollinate about 5 Borealis	July	sun, any soil	2 gallon pot	4-5'	4-5'	\$25
HASKAP 'CINDERELLA'	Large fruit; Cinderella is a pollinator for Borealis. Haskaps look great planted as an edible hedge.	PR		July	sun, any soil	2 gallon pot	4-5'	4-5'	\$25
RASPBERRY 'FALLGOLD' sold w Heritage Zone 4	Large gold fruit, 2 crops. Eat fresh, jellies. Spreads by runners which can be replanted or given away. Cut to 12" in fall.	SP		June & October		BR	5'	2'	
RASPBERRY 'HERITAGE' *bndl of 2 red, 1 blk, 1 gold* Zone 4	Medium red fruit, 2 crops. Eat fresh, jellies. Spreads by runners which can be replanted or given away. Cut to 12" in fall.	SP		July & Sept	Sun, part shade; sweeter in sun. Prickly stems	BR	4'	2'	\$20
RASPBERRY 'JEWEL' (EA) Black Raspberry, sold w Heritage Zone 4	Tasty black raspberry on arching stems, disease resistant, shade/walnut tolerant. Cut to 24" in fall	SP		late July		BR	4'	3'

Perennials & Vines									
							H	W	(incl. tax)
ASPARAGUS 'MARY WASHINGTON' Zone 3 *bndl of 5*	Sturdy tender spears in 2 or 3 years, long lived plant. Low maint. once established. Ferns are ornamental when harvest is over. Plant deeply, mulch well to prevent weeds.	SP	http://modernfarmer.com/2015/04/how-to-plant-asparagus/	early spring	Full sun, light soil	BR	pretty 4' ferns after harvest	18"	\$5
RHUBARB 'GERMAN WINE' Zone 3	Large red stalks for pies and chutneys. Very easy to grow, produces year after year. Do not eat leaves. Removing flowers helps with fruit quantity, or leave for visual interest.	SP	Plant 3-4' apart with the top of the root 1-2" below the surface	early spring	sun	BR	3'	2'	\$6
RUSSIAN COMFREY Bocking 4 (Non-invasive) Zone 2 *bundle of 2*	Companion plant for fruit trees, plant at base to shade out weeds, grass. Deep roots pull up soil nutrients; chop off leaves and drop them near ailing plants. Attracts beneficial insects.	SP			Plant near fruit trees as fertilizer, weed suppressant	3" pot	3'	3'	\$12
SEEDLESS SORREL Zone 3 *bndl of 1 sorrel, 1 hyssop*	Lemony leaves are great in soups and salads. Unlike seeded sorrel, leaves can be harvested all season and do not get stringy or bitter. Very low maintenance.	SP		all season	sun	3" pot	18"	12"	\$14
ANISE HYSSOP Zone 3 *NEW* *bndl of 1 sorrel, 1 hyssop*	Leaves are good in salads, cooking, healing teas. Ornamental and attracts pollinators. Very low maintenance.	SP		all season	sun	3" pot	2-4'	1-2'	
STRAWBERRY 'EVERSWEET' *bundle of 10* Zone 5	Big fat sweet red strawberries all season. <i>NOTE: we ship dormant bare-root seedlings - plant right away, water well, they grow fast! You may need to protect young strawberry beds from squirrels.</i>	SP		all summer	Full sun, good soil, regular watering	BR	12"	24"	\$8
GRAPE 'CANADICE RED' (SEEDLESS) Zone 4 *NEW*	Medium sized firm seedless red fruit, good producer.	SP		late Aug.	full sun, needs support	2 gallon pot	vine	vine	\$22
GRAPE 'CONCORD' Zone 4 *NEW*	Vigorous vine with large sweet spicy blue-black grapes for jelly or fresh eating. Easy to grow.	SP		mid Sept	full sun, needs support	BR	vine	vine	\$14
GRAPE 'HIMROD'(SEEDLESS) Zone 5	Yellow-gold mid sized seedless grapes in loose clusters for jelly or fresh eating. Productive and reliable.	SP		early Sept.	full sun, needs support	BR	vine	vine	\$14
