

Treemobile Plant Selection Guide Spring 2024

Growing Resilience Together

Prices include fungi inoculant for trees, website and operating costs. A minimal percentage has been added to enable Treemobile to donate extra plants to community orchards. All work is done by cheerful volunteers - sign up if you'd like to help. Proceeds, if any, are donated to Transition Guelph, Transition Toronto, and our wonderful host sites

In order to keep costs down, a nominal fee will be charged for delivery. Please note that **deliveries are within the delivery zones only** (zone map posted separately). If you are from outside of the delivery zone, you are welcome to pick up your order at one of our distribution centres, which you can specify when ordering.

Treemobile is not responsible for damages to services or property. Please request a locate from Ontario One Call <https://ontarioonecall.ca/homeowners/> before digging, especially for front yards

Plants are not guaranteed. Please take good care of your plants and water them as per instructions so that you may have delicious fruit for years to come. Refer to the Orchard People website <http://www.orchardpeople.com/> for care and watering, download their free manual, and/or purchase the online tree care book.

Thanks for your interest in Treemobile!

Plant Name **Description** **Poll.** **Pollinator Partner** **Ripens** **Siting** **Approx. Purchase Size** **H** **W** **Price (incl. tax)**

All fruit trees semi-dwarf or as noted. Rootstock info given if known. Zone refers to climate hardiness; eg. Toronto is Zone 2 to 6, Guelph is Zone 2 - 5.

Some plants require another variety for pollination. If there is another tree of the same variety & bloom time within 150' you should be fine. If not, and you don't have space for two trees, a neighbour can buy one and you can share the bounty!

FOR ALL FRUIT TREES: Full sun, protected from wind with good air circulation. East exposure helps to dry dew. Avoid bottom of hills (frost pockets) or hilltops unless protected by windbreak or building. Plant where falling fruit will not be an issue, nor under wires or over services. Fruit plants can be an ornamental part of your landscape design.

Pome Fruit Trees

NOTE: For larger apples, thin out smaller fruitlets after June drop

APPLE 'GOLDEN SENTINEL' Zone 5	Dwarf columnar tree for small spots and city lots. Gold fruit is crisp and sweet, produced on spurs along the trunk. Early producer for fresh eating, pies.	PR	Other mid-season bloomer	early Sept.	see above	20mm BR 6-7'	8-10'	2-3'	\$54.00
APPLE 'HONEYCRISP' Zone 3	Striped red/gold; crisp, sweet, mid-acid. Eat fresh or bake, stores very well. Dependable bearer, fairly resistant. Thin fruit for larger apples after June drop	PR	Other mid-season bloomer	end Sept.	see above	15mm BR 5-6'	15'	10'	\$49.00
APPLE 'JERSEYMAC' Zone 5 *NEW*	Yellow to red blush; firm, crisp, and juicy. Early producer for desserts or cooking.	PR	Other early to mid-season bloomer	mid-August	see above	15mm BR 5-6'	15'	10'	\$49.00
APPLE 'LIBERTY' Zone 4 *It's back!*	Medium red apple with crisp juicy yellow flesh for fresh eating or applesauce. Easiest apple to grow organically , very resistant to scab, rust, blight.	PR	Other early to mid-season bloomer	early Sept	see above	20mm BR 6-7'	15'	11'	\$54.00
APPLE 'SMOOTHEE GOLD' Zone 4	Crisp juicy gold apple with red blush, sweet flavour. Pick when fully yellow. stores well.	PR	Other early to mid-season bloomer	early October	see above	15mm BR 5-6'	15'	10'	\$49.00
APPLE 'SCARLET SENTINEL' Zone 5	Dwarf columnar tree for small spots and city lots. Red-blushed fruit is crisp and sweet, produced on spurs along the trunk. Early producer for fresh eating, pies.	PR	Other early to mid-season bloomer	early Sept.	see above	20mm BR 5-6'	8-10'	2-3'	\$54.00
APPLE 'SPARTAN' M.M.106 Zone 3	Small sweet crisp & juicy red apples for fresh eating. Hardy and resistant tree, dependable bearer with few problems	PR	Other early to mid-season bloomer	October	see above	15mm BR 5-6'	15'	10'	\$49.00
CRABAPPLE 'DOLGO' (FRTING) Zone 3	Large pretty bright red crabapples make delicious jellies and chutneys, highly ornamental in both fruit and flower. Low maintenance.	PR	Other early bloomer	mid-August	see above	15mm BR 6-7'	15'	11'	\$49.00
PEAR 'BARTLETT' Zone 5	Classic yellow pear, rich and buttery. Eat, can; good producer. Pears are easier to grow than apples.	PR	other pear variety	mid-Sept.	see above	15mm BR 6-7'	25'	12'	\$54.00
PEAR 'BOSC' Zone 5	Tan coloured elegant French pear for dessert, cooking, keeps well. Holds shape so best for poaching, canning. Hardy and slower growing.	PR	other pear variety	early Oct.	see above	15mm BR 6-7'	25'	12'	\$54.00
PEAR 'FLEMISH BEAUTY' Zone 4 *NEW*	Yellow fruit with red blush, tender and juicy. Eat fresh or can.	PR	other pear variety	mid-Sept.	see above	15mm BR 6-7'	18'	12'	\$54.00

Stone Fruit Trees and Shrubs

APRICOT 'PUGET GOLD' Zone 5	Exceptional flavour and texture for fresh eating, cooking, preserving. Worth trying for the delicious taste and texture of a really ripe apricot. Plant where it will not see the sunrise to avoid premature flowering.	SP	Plant spring flowering plants nearby to attract pollinators	July	Protect from morning sun - see description	20mm BR 7-9'	20'	16'	\$65.00
CHERRY 'LAPIN' Zone 3	Dark red-skinned large sweet, delicious cherry for fresh eating. Vigorous & very productive, fruit less prone to cracking in wet years.	SP/PP	pollinates other cherries	June/July	see top bar	20mm BR 7-9'	22'	15'	\$65.00
CHERRY 'MONTMORENCY' (sour cherry) Zone 4 *NEW*	Large red fruit with amber flesh; the BEST for pies and preserves. Montmorency has been planted for centuries.	SP/PP	pollinates other cherries	July	see top bar	15mm BR 6-7'	16'	12'	\$63.00
CHERRY 'SAM' Zone 5 *NEW*	Large sweet black cherry, flowers later than other cherries, so good for colder zones. Best eaten fresh	SP/PP	pollinates other cherries	mid-June	see top bar	20mm BR 7-9'	16'	12'	\$65.00

Plant Name	Description	Poll.	Pollinator Partner	Ripens	Siting	Approx. Purchase Size	Mature Size H	W	Price (incl. tax)
CHERRY-SHRUB 'CRIMSON PASSION' Zone 3	Dark red sweet cherries, great for preserves and pies. Compact cherry for urban yards, tolerant of city conditions. Easy to grow.	SP/PP	pollinates other cherries	mid August	see top bar	2 gallon pot	5-6'	4-5'	\$39.00
CHERRY-SHRUB 'CUPID' Zone 2	Dark red tart-sweet cherries for fresh eating, pies. Shrub cherry for smaller gardens or edible hedges. Easy to grow, prune to desired size.	SP/PP	pollinates other cherries	late August	see top bar	2 gallon pot	6-8'	4-5'	\$39.00
CHERRY-PLUM (aka CHUM) 'NADIA' Zone 5	Cherry-plum cross, dark red fruit halfway between cherry and plum in size and flavour. Eat fresh, bake, or preserve. Thin branches for more fruit.	SP/PP	pollinates other cherries & plums	Sept	see top bar	20mm BR 6-8'	9'	9'	\$65.00
PLUM 'ELEPHANT HEART' Zone 5 *NEW*	Heavy bearer of large heart-shaped freestone plums with luscious purplish flesh. Eat fresh or cook. Blight resistant Japanese variety.	PR	other Japanese plum	end July	see top bar	15mm BR 7-9'	15'	12'	\$54.00
PLUM 'SHIRO' Zone 5	Yellow-skinned, heavy bearer with mild flavour, sweet and juicy. Eat, preserve, dry, can. Blight resistant Japanese variety.	PR	other Japanese plum	end July	see top bar	15mm BR 7-9'	15'	12'	\$54.00

Shrubs and Canes

SASKATOON BERRY 'NORTHLINE'/Amel. Alnifolia Zone 2 Native parentage *NEW*	Fat blueberry like fruit, one of best tasting saskatoons. Tallish shrub with lovely spring flowers, fall colour, attracts birds	SP	Thin every few years as needed	June	sun, light shade	2 gallon pot	6'-8'	5'	\$33.00
SERVICEBERRY (Amelanchier canadensis) Zone 4 Native plant	Blueberry/almond-flavoured berries for pies/preserves/snacks. Ornamental bark, flowers, great fall colour, low maint., attracts birds. Prune to desired size and shape.	SP	Thin every few years as needed	June	sun, light shade	1 gallon pot	6'-8'	6'	\$17.00
ARONIA MELANOCARPA (Chokeberry) Zone 4 Native plant	Attractive shrub with black berries high in pectin and antioxidants, best picked after first frost, eat cooked. Easy to grow, vibrant red fall colour. Tolerates wet soil.	SP	Prune to desired size, remove suckers to control spread	late fall	sun, light shade	2 gallon pot	4'	4'	\$25.00
ASIMINA TRILOBA / PAWPAW (seedling) Zone 5 Native plant *NEW*	Small tree with large tropical looking foliage. Fruit must be eaten as soon as ripe, it does not keep. Ripe when easy to pick from tree and flesh gives a bit. Tastes like mango-pineapple-bannana. Very slow growing, fruits in 7 years, difficult plant to find.	PR	other pawpaw	late Aug - fall; ripens progressively	prefers light shade	1 litre pot	15'	5'	\$20.00
ASIMINA TRILOBA / PAWPAW (3 year) Zone 5 Native plant *NEW*	Small tree with large tropical looking foliage. Fruit must be eaten as soon as ripe, it does not keep. Ripe when easy to pick from tree and flesh gives a bit. Tastes like mango-pineapple-bannana. Larger specimen, will fruit faster than seedlings	PR	other pawpaw	late Aug - fall; ripens progressively	prefers light shade	80cm 3 gallon	15'	5'	\$120.00
ELDERBERRY Sambucus Canadensis Zone 3 native plant	Ornamental, vigorous, easy care. Large white flowers for tea, fritters, wine. Berries high in Vit. C, eat cooked when fully ripe. Cough remedies, juice, jams, pies. Cut out weak stems in spring, cut out suckers if desired.	PR	other elderberry variety	August	sunny to fairly sunny	50cm 3 gallon	8-9'	6-7'	\$25.00
ELDERBERRY 'KENT' Zone 3 native parentage	Ornamental, easy care. Large white flowers tea, fritters, wine. Flavourful berries high in Vit. C, eat cooked when fully ripe. Cough remedies, juice, jams, pies. Cut out weak stems in spring.	PR	other elderberry variety	August	sunny to fairly sunny	BR	8'	6'	\$13.00
ELDERBERRY 'YORK' Zone 3 native parentage	Ornamental, easy care, shade tolerant. Large white flowers tea, fritters, wine. Berries high in Vit. C, eat cooked when fully ripe. Cough remedies, juice, jams, pies. Cut out weak stems in spring.	PR	other elderberry variety	August	sunny to fairly sunny	BR	8'	6'	\$13.00
FIG: FICUS CARICA 'CHICAGO HARDY' Zone 5/6	Delicious medium-size purple-brown FIGS!! Low-maint plant with attractive leaves, fruits fairly young. Can be grown outdoors if mulched deeply, but produces many more figs if overwintered in a cool dark spot and brought out in early spring. Leaves smell odd so not a good house plant.	SP	Some growers protect their outdoor figs in winter with wood framed structures clad in plastic. Prune to desired size, can grow larger in a greenhouse setting	July - frost	sunny to fairly sunny	2 gallon pot	6'	3'	\$33.00
FIG: FICUS CARICA 'DESERT KING' Zone 6 *NEW*	Fast-growing bearer of large greenish-yellow fruit wth purple flesh. Overwinter in a protected spot, in a container. Leaves smell odd so not a good house plant.	SP	Not hardy, must be overwintered in a pot. Our fig produces about 2-3 dozen fruits a season. Prune to desired size	July - frost	sunny to fairly sunny	2 gallon pot	6'	3'	\$42.00

BLACKBERRY 'BLACK SATIN' Zone 4b	Large juicy berries on long canes for six weeks in summer, sweeter than commercial varieties. Easy to grow. Best not too close to apples. Prune to shape, or train canes to edible arches	SP		July for several weeks	Full sun, away from patios or apple trees.	BR	10'	prune to size	\$13.00
CURRENT 'RED LAKE' Zone 5 *bundle of 2 red, 1 black, 1 white**	Tart red fruit for salads, smoothies, jellies, drying. Easy to grow. Blends into any shrub border, prune to desired height.	SP	Prune out old canes every few years to maintain fruit production	mid July	sun, part shade	BR	3-4'	3'	\$49.00
CURRENT 'WELLINGTON' Zone 5 (sold with Red Lake)	Soft aromatic black berry for jellies, drying. Easy to grow. Blends into any shrub border, prune to desired height. Makes fantastic jam without pectin, pick when fully ripe for best flavour.	SP	Prune out old canes every few years to maintain fruit production	mid July	sun, part shade	BR	3-4'	3'	see above
CURRENT 'WHITE PEARL' Zone 5 (sold with Red Lake)	Pale berry for jellies, drying, garnish. Easy to grow. Blends into any shrub border, prune to desired height.	SP	Prune out old canes every few years to maintain fruit production	mid July	sun, part shade	BR	3'	3'	see above
GOOSEBERRY 'PIXWELL' Zone 3	Greenish fruit for jelly, mincemeat, chutney, trifle. Flavour changes when ripens to purple. Slightly thorny, easy to grow. Walnut & shade tolerant.	SP		July-August	sun, part shade	BR	3'	2-3'	\$13.00
RASPBERRY 'HERITAGE' *bundle of 2 red, 1 gold* Zone 4	Medium red fruit, 2 crops. Eat fresh, jellies. Spreads by runners which can be replanted or given away. Cut to 24" in fall.	SP		July & Sept	Sun, part shade; sweeter in sun. Prickly stems	BR	4'	2'	\$15.00
RASPBERRY 'FALLGOLD' sold w Heritage Zone 4	Large gold fruit, 2 crops. Eat fresh, jellies. Spreads by runners which can be replanted or given away. Cut to 24" in fall.	SP		June & October		BR	5'	2'	see above
RASPBERRY 'JEWEL' Black Raspberry Zone 4 *bundle of 3*	Tasty black raspberry on arching stems, disease resistant, shade & walnut tolerant. Ripens gradually over 4-5 weeks for breakfast berries! Cut to 30" in fall	SP	Remove old dead-looking stems in fall	July	Shade and walnut tolerant	BR	4'	3'	\$22.00

Perennials & Vines

GRAPE 'BACO NOIR' Zone 5	Blue-black large seedless grapes, sweet with a spicy flavour. French American hybrid. Eat fresh, or in juice, wine, jelly.	SP		late Sept.-early Oct		BR	vine	vine	\$15.00
GRAPE 'CONCORD' Zone 4	Vigorous vine with large sweet spicy blue-black grapes for jelly or fresh eating. Easy to grow.	SP	Grow on fence or strong support. Can be pruned back after fruiting. Grapes are slow to leaf out in spring.	mid Sept	full sun, south exposure, needs strong support	BR	vine	vine	\$15.00
GRAPE 'FREDONIA' (seedless black) Zone 5	Blue-black large seedless grapes, sweet with a spicy flavour. Eat fresh, or in juice, jelly.	SP		early Sept.		BR	vine	vine	\$15.00
GRAPE 'HIMROD' (seedless gold) Zone 5	Yellow-gold mid sized seedless grapes in loose clusters for jelly or fresh eating. Productive and reliable, excellent table grape	SP		mid Sept.		BR	vine	vine	\$15.00
ASPARAGUS 'MILLENIUM' Zone 3 *shipped bndl of 5 in one pot, to replant*	Sturdy tender spears in 2 or 3 years, long lived, low maintenance plant. Ferns are ornamental when harvest is over, and can be cut back a bit if they flop. Plant with top of crown 6" below soil, mulch well to prevent weeds.	SP		http://modernfarmer.com/2015/04/how-to-plant-asparagus/		early spring	Full sun, light rich soil	BR	pretty 4' ferns after harvest
RHUBARB 'GERMAN WINE' Zone 3	Large red stalks for pies and chutneys. Very easy to grow, produces year after year. Do not eat leaves. Removing flowers helps with fruit quantity, or leave for visual interest.	SP	Plant 3-4' apart with the top of the root 1-2" below the surface	early spring	sun	BR	3'	2'	\$7.00
STRAWBERRY 'OZARK BEAUTY' Zone 5 *shipped bndl of 5 in one pot, to replant*	Big fat sweet red strawberries intermittently all season. Protect young strawberry beds from squirrels. New plants can be propagated from runners.	SP	Mulch with straw or cedar bark to keep weeds down and berries clean	mid-late season	Full sun, good soil, regular watering	BR	12"	24"	\$5.00
STRAWBERRY ALPINE Zone 3 *NEW, hard to find plant* **shipped as a single clump in a pot*	Small, neat plants make a nice border, and easy to see and pick the tiny deliciously fragrant berries; each one with a slightly different taste. Clumps can be divided when large, or dry fruit to seed propagate. Low maint.	SP	Mulch well, around the clump. Does not make runners like regular strawberries.	summer-fall, a few berries at a time	sun to part shade	1 gal pot	6"	12"	\$12.00
SUNCHOKES (Jer. Artichoke) Zone 5 Native plant *shipped bndl of 5 in one pot, to replant*	Tuber of the sunflower family, golden flowers. Dig up in late fall before frost. Can be invasive; plant in contained area. Eat fresh or roasted. Small chokes can be replanted in fall for next year	SP	Plant fall or spring, 4" deep, 16" apart. Part of fall harvest can be replanted for the following spring	October	Full sun, light soil	BR	4'	1'	\$12.00
