

Treemobile Plant Selection Guide Spring 2024S

Growing Resilience Together

Prices include fungi inoculant for trees, website and operating costs. A minimal percentage has been added to enable Treemobile to donate extra plants to community orchards and gardens. All work is done by cheerful volunteers - sign up if you'd like to help. Proceeds, if any, are donated to our wonderful host teams in Hamilton, Guelph, and Toronto. Thanks for your interest in Treemobile!

In order to keep costs down, a nominal fee will be charged for delivery. Please note that **deliveries are within the delivery zones only** (zone map posted separately). If you are from outside of the delivery zone, you are welcome to pick up your order at one of our distribution centres, which you can specify when ordering.

Treemobile is not responsible for damages to services or property. Please request a locate from Ontario One Call <https://ontarioonecall.ca/homeowners/> before digging, especially for front yards. If you can not get locates done in time, note location of your services and overhead lines when siting your plants

Plants are not guaranteed. Please take good care of your plants and water them as per instructions so that you may have delicious fruit for years to come. Refer to the Orchard People website <http://www.orchardpeople.com/> for care and watering, download their free manual, and/or purchase the online tree care book.

Plant Name	Description	Poll.	Pollinator Partner	Ripens	Siting	Approx. Purchase Size	H	W	(incl. tax)
All fruit trees semi-dwarf or as noted. Zone refers to Canadian climate hardness; eg. Toronto is Zone 2 to 6, Guelph is Zone 2 - 5.		Some plants require another variety of the same species for pollination. Eg: a Honeycrisp will not pollinate another Honeycrisp, you need a different apple for fruit production. If there is a different variety of the same species & bloom time within 100' you should be fine. If not, and you don't have space for two trees, a neighbour can buy one and you can share the bounty!			FOR ALL FRUIT TREES: Full sun, protected from wind with good air circulation. East exposure helps to dry dew. Avoid bottom of hills (frost pockets) or hilltops unless protected by windbreak or building. Plant where falling fruit will not be an issue, nor under wires or over services. Fruit plants can be an ornamental part of your landscape design.				
Pome Fruit Trees		NOTE: For larger apples, thin out smaller fruits after early June fruit drop							
APPLE 'GOLDEN SENTINEL' Zone 5	Dwarf columnar tree for small spots and city lots. Gold fruit is crisp and sweet, produced on spurs along the trunk. Early producer for fresh eating, pies.	PR	Other mid-season bloomer	early Sept.	see above	20mm BR 6-7'	8-10'	2-3'	\$57
APPLE 'GALA' Zone 5 *NEW*	Sweet and aromatic all-purpose apple with golden flesh and striped red skin, early producer.	PR	Other mid-season bloomer	Aug. - Sept.	see above	15mm BR 5-6'	15'	10'	\$53
APPLE 'COMBO' *NEW* Zone 5	A combination of apple cultivars grafted on the same tree; a space saver as you don't need a pollinator. Multi-variety trees are more difficult to prune as some species grow at different rates. Combos are often grown as espaliers, see web for info.	SP	N/A	varies	see above	20mm BR 6-7'	depends on pruning		\$119
APPLE 'HONEYCRISP' Zone 3	Striped red/gold; crisp, sweet, mid-acid. Eat fresh or bake, stores very well. Dependable bearer, fairly resistant. Thin fruit for larger apples	PR	Other mid-season bloomer	end Sept.	see above	15mm BR 5-6'	13'	10'	\$53
APPLE 'LIBERTY' Zone 4 *It's back!*	Medium red apple with crisp juicy yellow flesh for fresh eating or applesauce. Easiest apple to grow organically, very resistant to scab, rust, blight.	PR	Other early to mid-season bloomer	early Sept	see above	20mm BR 6-7'	15'	11'	\$53
APPLE 'SCARLET SENTINEL' Zone 5	Dwarf columnar tree for small spots and city lots.Red-blushed fruit is crisp and sweet, produced on spurs along the trunk. Early producer for fresh eating, pies.	PR	Other early to mid-season bloomer	early Sept.	see above	20mm BR 5-6'	8-10'	2-3'	\$57
APPLE 'SMOOTHEE GOLD' Zone 4	Crisp juicy gold apple with red blush, sweet flavour. Pick when fully yellow for best flavour, stores well.	PR	Other early to mid-season bloomer	early October	see above	15mm BR 5-6'	15'	10'	\$53
CRABAPPLE 'DOLGO' (FRTING) Zone 3	Large pretty bright red crabapples make delicious jellies and chutneys, highly ornamental in both fruit and flower. Low maintenance.	PR	Spartan, Liberty, other crabapples (early bloom)	mid-August	see above	15mm BR 5-6'	15'	11'	\$53
ASIAN PEAR 'CHOJURO' Zone 4 *It's back!*	Russet colour, juicy, aromatic and crisp, stores well. Lovely caramel flavour when picked fully ripe. Few diseases, fruit tends to hang on tree till picked. Fresh eating or keeping.	SP/PP	bartlett, other Asian	late Aug.	see above	20mm BR 6-7'	15'	10'	\$59
PEAR 'BARTLETT' Zone 5	Classic yellow pear, rich and buttery. Eat, can; good producer. Pears are easier to grow than apples.	PR	other pear variety	mid-Sept.	see above	20mm BR 6-7'	25'	12'	\$59
PEAR 'BOSC' Zone 5	Tan coloured elegant French pear for dessert, cooking, keeps well. Holds shape so best for poaching, canning. Hardy and slower growing.	PR	other pear variety	early Oct.	see above	15mm BR 6-7'	25'	12'	\$56
PEAR 'CLAPP'S FAVOURITE' Zone 5 *It's back!*	Yellow-green fruit with red blush, tender, sweet, juicy and tangy. Eat fresh or can.	PR	other pear variety	late August	see above	20mm BR 6-7'	15'	12'	\$59
Stone Fruit Trees and Shrubs									
STONE FRUIT COCKTAIL: Combo Zone 5 *NEW*	Combo of stone fruits grafted onto a single tree: peach, apricot, nectarine, cherry, plum. Saves space as it does not need a pollinator. Multi-variety trees are more difficult to prune as some species grow at different rates. Combos are often grown as espaliers. see web for info.	SP	N/A	varies	protect from morning sun to protect early blooms	20mm BR 6-7'	depends on pruning		\$125

Plant Name	Description	Poll.	Pollinator Partner	Ripens	Siting	Approx. Purchase Size	H	W	Price (incl. tax)
APRICOT PUGET GOLD' Zone 5	Exceptional flavour and texture for fresh eating, cooking, preserving. Worth trying for the delicious taste and texture of a really ripe apricot. Plant where it will not see the sunrise to avoid premature flowering.	SP	Plant early spring flowering plants nearby to attract pollinators	July	Protect from morning sun - see description	20mm BR 6-7'	20'	16'	\$79
CHERRY 'LAPIN' Zone 3	Dark red-skinned large sweet, delicious cherry for fresh eating. Vigorous & very productive, fruit less prone to cracking in wet years.	SP/PP	pollinates other cherries	June/July	see top bar	20mm BR 7-9'	22'	15'	\$79
CHERRY 'SAM' Zone 5	Large sweet black cherry, flowers later than other cherries, so good for colder zones. Best eaten fresh	SP/PP	pollinates other cherries	mid-June	see top bar	20mm BR 7-9'	16'	12'	\$79
CHERRY 'RAINIER' Zone 5 <i>*NEW*</i>	Large yellow sweet premium cherry with red blush; the colour may make it less attractive to birds. Early season, eat fresh.	SP/PP	pollinates other cherries	early July	see top bar	20mm BR 7-9'	22'	15'	\$79
CHERRY 'MONTMORENCY' (sour cherry) Zone 4	Large red fruit with amber flesh; the BEST for pies and preserves. Montmorency has been planted for centuries.	SP/PP	pollinates other cherries	July	see top bar	20mm BR 6-7'	16'	12'	\$79
CHERRY-SHRUB 'CRIMSON PASSION' Zone 3	Dark red sweet cherries, great for preserves and pies. Compact cherry for urban yards, tolerant of city conditions. Easy to grow.	SP/PP	pollinates other cherries	mid August	see top bar	2 gallon pot	5-6'	4-5'	\$37
CHERRY-SHRUB 'CUPID' Zone 2	Dark red tart-sweet cherries for fresh eating, pies. Shrub cherry for smaller gardens or edible hedges. Easy to grow, prune to desired size.	SP/PP	pollinates other cherries	late August	see top bar	2 gallon pot	6-8'	4-5'	\$37
CHERRY-SHRUB 'JULIET' Zone 2	Dark red tart-sweet cherries for fresh eating, pies. Shrub cherry for smaller gardens or edible hedges. Easy to grow, prune to desired size. Juliet is the sweetest of the shrub cherries.	SP/PP	pollinates other cherries	August	see top bar	2 gallon pot	6-8'	5-6'	\$37
CHERRY-PLUM (aka CHUM) 'NADIA' Zone 5	Cherry-plum cross, dark red fruit halfway between cherry and plum in size and flavour. Eat fresh, bake, or preserve.	SP/PP	pollinates other cherries & plums	Sept	see top bar	20mm BR 6-8'	9'	9'	\$79
PLUM 'ELEPHANT HEART' Zone 5	Heavy bearer of large heart-shaped freestone plums wth luscious purplish flesh. Eat fresh or cook. Blight resistant Japanese variety.	PR	other Japanese plum	end July	see top bar	9mm BR 5-6'	15'	12'	\$49
PLUM 'SHIRO' Zone 5	Yellow-skinned, heavy bearer with mild flavour, sweet and juicy. Eat, preserve, dry, can. Blight resistant Japanese variety.	PR	other Japanese plum	end July	see top bar	9mm BR 5-6'	15'	12'	\$49
PLUM 'TOKA' Zone 3 <i>*NEW*</i>	Toka Plum, aka Bubblegum Plum, produces very sweet and juicy reddish bronze colored plums with yellow flesh. Cold hardy, early fruit. Blight resistant Japanese variety.	PR	other Japanese plum	August	see top bar	20mm BR 6-8'	15'	12'	\$58
Shrubs and Canes									
SASKATOON BERRY 'NORTHLINE'/Amel. Alnifolia Zone 2 <i>Native parentage</i>	Fat blueberry like fruit, one of best tasting saskatoons. Tallish shrub with lovely spring flowers, fall colour, attracts birds	SP	Thin every few years as needed, prune out suckers	June	sun, light shade	2 gallon pot	6'-8'	5'	\$35
SASKATOON BERRY 'SMOKEY'/Amel. Alnifolia Zone 2 <i>Native parentage *NEW*</i>	Fat blueberry like fruit, prolific producer. Tallish shrub with lovely spring flowers, fall colour, attracts birds	SP	Thin every few years as needed, prune out suckers	June	sun, light shade	2 gallon pot	6'-8'	5'	\$35
SERVICEBERRY (Amelanchier canadensis) Zone 4 <i>Native plant</i>	Blueberry/almond-flavoured berries for pies, preserves, snacks. Ornamental bark, flowers, great fall colour, low maint., attracts birds. Prune to desired size and shape.	SP	Thin every few years as needed, prune out suckers	June	sun, light shade	50cm 3 gallon	6'-8'	6'	\$35
ARONIA MELANOCARPA (Chokeberry) Zone 4 <i>Native plant</i>	Attractive shrub with black berries high in pectin and anti-oxidants, best picked after first frost, eat cooked. Easy to grow, vibrant red fall colour. Tolerates wet soil.	SP	Prune to desired size	late fall	sun, light shade	1 gallon pot	4'	4'	\$17
ASIMINA TRILOBA / PAWPAW (3 year) Zone 5 <i>Native plant *NEW*</i>	Small tree with large tropical looking foliage. Fruit does not keep, must be eaten as soon as ripe. Ripe when easy to pick from tree, flesh gives a bit. Mango-pineapple-bannana taste. Very slow growing, fruits in 7 years, difficult plant to find.	PR	other pawpaw	late Aug - fall; ripens progressively	needs light dappled shade or will scorch	100cm 3 gallon	15'	5'	\$125
ELDERBERRY Sambucus Canadensis Zone 3 <i>native plant</i>	Ornamental, easy care. Large white flowers tea, fritters, wine. Berries high in Vit. C, eat cooked when fully ripe. Cough remedies, juice, jams, pies. Cut out weak stems in spring, cut out suckers if desired	PR	other elderberry variety	August	sunny to fairly sunny	2 gallon pot	8-9'	6-7'	\$24
ELDERBERRY 'SCOTIA' Zone 3 <i>native parentage</i>	Ornamental, easy care. Large white flowers tea, fritters, wine. Flavourful berries high in Vit. C, eat cooked when fully ripe. Cough remedies, juice, jams, pies. Cut out weak stems in spring.	PR	other elderberry variety	July	sunny to fairly sunny	2 gallon pot	8'	6'	\$26
ELDERBERRY 'VICTORIA' Zone 3 <i>native parentage</i>	Ornamental, easy care. Large white flowers tea, fritters, wine. Berries high in Vit. C, eat cooked when fully ripe. Cough remedies, juice, jams, pies. Cut out weak stems in spring.	PR	other elderberry variety	September	sunny to fairly sunny	2 gallon pot	8'	6'	\$26

Plant Name	Description	Poll.	Pollinator Partner	Ripens	Siting	Approx. Purchase Size	H	W	(incl. tax)
FIG: FICUS CARICA 'CHICAGO HARDY' Zone 5/6	Delicious medium-size purple-brown FIGS!! Low-maint plant with attractive leaves, fruits fairly young. Can be grown outdoors if mulched deeply, but produces many more figs if overwintered in a cool dark spot and brought out in early spring. Leaves smell odd so not a good house plant.	SP	Some growers protect their outdoor figs in winter with wood framed structures clad in plastic. Prune to desired size, can grow larger in a greenhouse setting	July - frost	sunny to fairly sunny	2 gallon pot	6'	3'	\$35
BLACKBERRY 'BLACK SATIN' Zone 4b	Large juicy berries on long canes for six weeks in summer, sweeter than commercial varieties. Easy to grow. Best not too close to apples. Prune to shape, or train a few strong canes to edible arches	SP		July for several weeks	Full sun, away from patios or apple trees.	BR	10'	prune to size	\$14
CURRENT 'RED LAKE' Zone 5 *bundle of 2 red, 1 black, 1 white**	Tart red fruit for salads, smoothies, jellies, drying. Easy to grow. Blends into any shrub border, prune to desired height.	SP	Prune out old canes every few years to maintain fruit production	mid July	sun, part shade	BR	3-4'	3'	\$45
CURRENT 'WELLINGTON' Zone 5 (sold with Red Lake)	Soft aromatic black berry for jellies, drying. Easy to grow. Blends into any shrub border, prune to desired height. Makes fantastic jam without pectin, pick when fully ripe for best flavour.	SP	Prune out old canes every few years to maintain fruit production	mid July	sun, part shade	BR	3-4'	3'	
CURRENT 'WHITE PEARL' Zone 5 (sold with Red Lake)	Pale berry for jellies, drying, garnish. Easy to grow. Blends into any shrub border, prune to desired height.	SP	Prune out old canes every few years to maintain fruit production	mid July	sun, part shade	BR	3'	3'	
GOOSEBERRY 'PIXWELL' Zone 3	Greenish fruit for jelly, mincemeat, chutney, trifle. Flavour changes to purple when ripe. Slightly thorny, easy to grow. Walnut & shade tolerant.	SP		July-August	sun, part shade	BR	3'	2-3'	\$14
RASPBERRY 'HERITAGE' *bndl of 3 red* Zone 4	Medium red fruit, 2 crops. Eat fresh, jellies. Spreads by runners which can be replanted or given away. Cut to 24" in fall.	SP		July & Sept	Sun, part shade; sweeter in sun. Prickly stems	BR	4'	2'	\$16
RASPBERRY 'JEWEL' Black Raspberry Zone 4 *bundle of 3*	Tasty black raspberry on arching stems, disease resistant, shade & walnut tolerant. Ripens gradually over 4-5 weeks for breakfast berries! Cut to 30" in fall	SP	Remove old dead-looking stems in fall	July	Shade and walnut tolerant	BR	4'	3'	N/A
Perennials & Vines									
GRAPE 'BACO NOIR' Zone 5	Blue-black large seedless grapes, sweet with a spicy flavour. French American hybrid. Eat fresh, or in juice, wine, jelly.	SP	Grow on fence or strong support. Can be pruned back after fruiting. Grapes are slow to leaf out in spring.	late Sept.-early Oct	full sun, south exposure, needs strong support	BR	vine	vine	\$16
GRAPE 'CONCORD' Zone 4	Vigorous vine with large sweet spicy blue-black grapes for jelly or fresh eating. Easy to grow.	SP		mid Sept		BR	vine	vine	\$16
GRAPE 'FREDONIA' (seedless black) Zone 5	Blue-black large seedless grapes, sweet with a spicy flavour. Eat fresh, or in juice, jelly.	SP		early Sept.		BR	vine	vine	\$16
GRAPE 'HIMROD' (seedless gold) Zone 5	Yellow-gold mid sized seedless grapes in loose clusters for jelly or fresh eating. Productive and reliable, excellent table grape	SP		mid Sept.		BR	vine	vine	\$16
ASPARAGUS 'MILLENNIUM' Zone 3 *shipped bndl of 5 in one pot, to replant*	Sturdy tender spears in 2 or 3 years, long lived, low maintenance plant. Ferns are ornamental when harvest is over, and can be cut back a bit if they flop. Plant with top of crown 6" below soil, mulch well to prevent weeds.	SP	http://modernfarmer.com/2015/04/how-to-plant-asparagus/	early spring	Full sun, light rich soil	BR	pretty 4' ferns after harvest	18"	\$8
RHUBARB 'GERMAN WINE' Zone 3	Large red stalks for pies and chutneys. Very easy to grow, produces year after year. Do not eat leaves. Removing flowers helps with fruit quantity, or leave for visual interest.	SP	Plant 3-4' apart with compost, the top of the root 1-2" below the surface, not too deeply	early spring	sun	BR	3'	2'	\$7
STRAWBERRY 'QUINAULT' Zone 5 *shipped bndl of 5 in one pot, to replant*	Big fat very sweet red strawberries intermittently all season. Protect young strawberry beds from squirrels. New plants can be propagated from runners.	SP	Mulch with straw or cedar bark to keep weeds down and berries clean	mid-late season	Full sun, good soil, regular watering	BR	12"	24"	\$5
SUNCHOKES (Jer. Artichoke) Zone 5 Native plant *shipped bndl of 5 in one pot, to replant*	Tuber of the sunflower family, golden flowers. Dig up in late fall before frost. Can be invasive; plant in contained area. Eat fresh or roasted. Small chokes can be replanted in fall for next year	SP	Plant fall or spring, 4" deep, 16" apart. Part of fall harvest can be replanted for the following spring	October	Full sun, light soil	BR	4'	1'	\$13
RUSSIAN COMFREY Bocking 4 (Non-invasive) Zone 2	Companion plant for fruit trees, plant at at base to shade out weeds, grass. Deep roots pull up soil nutrients; chop off leaves and drop them near ailing plants. Attracts beneficial insects.	SP	Plant near fruit trees as fertilizer, weed suppressant		sun or light shade	1 gallon pot	3'	3'	\$17
ANISE HYSSOP Zone 3	Leaves are good in salads, cooking, healing teas. Ornamental and attracts pollinators. Very low maintenance.	SP		all season	sun	1 gallon pot	2-4'	1-2'	\$15
SEEDLESS SORREL Zone 3	Lemony leaves are great in soups and salads. Unlike seeded sorrel, leaves can be harvested all season and do not get stringy or bitter. Very low maintenance, thick growth suppresses weeds, great for base of fruit trees	SP		all season	sun	3" pot	18"	12"	\$7
